Letter of Recommendation

I am pleased to recommend Ciprian Florea for this position. I worked alongside Mr Florea in PATIO project in 2018 where he was developing a Unity based virtual reality application. Later the same year, as he decided to advance his studies, I was the second supervisor for his master's thesis. I know him to be highly intelligent, motivated and skilled developer and a student.

As a developer he worked in a team with professionals with varying backgrounds. His people and communication skills are top quality, which makes him also a joy to work with. He is hard-working, trustworthy and fast to adapt.

I can wholeheartedly recommend Ciprian Florea for this position. I am sure he will become a valuable addition to your team.

Sincerely,

30th Sept. in Oulu

A handwritten signature in blue ink, appearing to read "Paula Alavesa".
